

1 BACKGROUND

1.1 MECOLD Lettering font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD.

This font is based on data personally collected from fellow texture artists, the Internet and hobby magazines related to Maine Central and Fruit Growers Express. It is, at best, an approximation of what is seen and does not come from any personal experience with what is documented here. Items drawn here could be very wrong or slightly off... so remember... this is a living item, not something cast in stone. Feedback is welcome.

1.2 Why MECOLD?

*I know sometimes you wonder why we choose weird names for fonts. MECOLD contains the letters used to make the Main Central reporting marks and related logo and slogan material, as well as the Fruit growers express refrigerator car slogans. Unique naming identifies *this* work that has been done to preserve legacy commercial representations derived from photographs. It also helps the author to find the fonts at a future date when they have leached to some of the many "FREE FONT" sites without so much as a "Hello, we distribute your font".*

We need to be able to find all the uncontrolled copies if we ever get asked update it or even to comply with cease and desist orders from trademark owners

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP**. (*I'll assume that you used c:\temp from here on...*)

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\MECOLD.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**MECOLD.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.

3 Font Usage:

There are no UPPER CASE lettering assignments. The UPPERCASE glyphs are used for Logo's, Slogans and Stencils.

Lowercase: (font size 48) – Similar to FGE

ABCDEFGHIJKLM
NOPQRSTUVWXYZ
Z

Numbers: (font size 48) 2 slightly different – Note: MEC also used Helvetica font.

UNSHIFTED

0123456789

SHIFTED –

0123456789

3.1 Special Keys

The logo's and letters are similar to the style used on Illinois Central and Illinois Central Gulf Diesels and Freight.
